

KEY PRODUCT FEATURES AND BENEFITS

- A tailor-made system to meet your specific cellar / pool plant room and safety needs.
- Suitable for CO2 gas dispense in outlets with volume trading sessions.
- Food grade CO2 for requirements such as large soft drinks dispense and/or pool plant room pH correction.
- CarboStore can be sited internally or externally, above or below ground level.
- CarboStore holds liquid CO2 at low pressure.
- CarboStore refilled on site, either direct to tank or via unique remote fill point.
- Backup cylinders and CO2 monitor installed for added security.

“Revolutionary system designed to save time, space and money”.

The ultimate solution for strong trading sites.

Saves Time - no more cylinder handling or changing - especially during busy sessions.

Saves Money - only pay for the CO2 you use.

Saves Space - tank can be sited conveniently to relieve valuable cellar / plant room space.

Saves Administration - fixed monthly fee tailored to suit, means billing and budgeting is easy.

Saves Saleable Product - constant pressure levels means fobbing can be significantly reduced. pH fluctuation reduced in plant room applications.

Safety Built In - no more handling cylinders means less chance of injury to you and your staff. CO2 monitors and other safety equipment can be supplied.

Fit and Forget System - the system is designed to need virtually no input from you or your staff.

Peace of Mind - our Gas Management system automatically schedules regular deliveries, saving you the hassle of chasing orders or waiting for deliveries.
