

Economy Pressure Regulator

Single Stage

General Purpose
Non-corrosive
High inlet pressure

Specifications

Materials

Body: Brass
Bonnet: Brass
Diaphragm: Neoprene

Pressure Rating

Maximum inlet pressure

Connections

Inlet: Available with most cylinder connections; eg BS3, BS4

Outlet: Hose tail is standard, compression fittings can be specified.

This series of brass single regulators are designed for use with non-corrosive gases. This light weight, compact regulator provides a good compromise between cost and precise pressure control.

Ordering Information

Order Code	Model Type	
17/2000	0-0.5 Bar	Outlet Pressure
17/2001	0-2 Bar	Outlet Pressure
17/2002	0-5.5 Bar	Outlet Pressure
17/2003	0-10 Bar	Outlet Pressure
